Recovery Plans
Docket No. 2017-370-E

(This filing does not involve any change to the retail electric base rates
of Dominion Energy South Carolina, Inc.)

Dear Ms. Boyd:

The purpose of this letter is to inform the Public Service Commission of South
Carolina of recent changes that Dominion Energy, Inc. ("Dominion Energy") has
made to its operating segments which involves Dominion Energy South Carolina, Inc.
("DESC"). In addition to the change in its operating segments, Dominion Energy has
also appointed additional executive leadership for DESC.

(Continued . . .)

Prior to the completed merger between Dominion Energy and SCANA Corporation, Dominion Energy operated three primary segments. Those operating segments are identified and described below.

1. **Power Delivery.** This operating segment was responsible for regulated electric distribution and transmission.
2. **Power Generation.** This operating segment was responsible for regulated and merchant electric generation.
3. **Gas Infrastructure.** This operating segment was responsible for gas transmission and storage; gas distribution and storage; gas gathering and processing; liquefied natural gas terminalling and storage; and nonregulated retail energy marketing.

In January 2019, and as a result of the completed merger between Dominion Energy and SCANA Corporation ("SCANA"), Dominion Energy established a fourth operating segment that was identified as the Southeast Energy Group. The Southeast Energy Group consisted of the operations of DESC as well as all the other operating subsidiaries of SCANA.

In December 2019, Dominion Energy made certain adjustments to its operating segments. More specifically, Dominion Energy renamed and reorganized its operating segments. Dominion Energy's operating segments are now entitled, "Dominion Energy Virginia", "Gas Transmission & Storage", "Gas Distribution", "Dominion Energy South Carolina", and "Contracted Generation." Dominion Energy's current operating segments are set forth in the table below.

Primary Operating Segment	Description of Operations
Dominion Energy Virginia	Regulated electric distribution Regulated electric transmission Regulated electric generation fleet
Gas Transmission & Storage	Gas transmission and storage LNG terminalling and storage Nonregulated retail energy marketing
Gas Distribution	Gas distribution and storage Gas gathering and processing

(Continued . . .)

Dominion Energy South Carolina	Regulated electric distribution Regulated electric transmission Regulated electric generation fleet Gas distribution and storage
Contracted Generation	Merchant electric generation fleet

The changes to the operating segments described above do not have any adverse impact on DESC or its customers and do not constitute a structural reorganization of DESC.

As for the leadership of the DESC operating segment, P. Rodney Blevins continues to serve as the president of DESC. Effective December 1, 2019, Diane Leopold became the chief executive officer of DESC, and Mr. Blevins reports to Ms. Leopold.¹ Ms. Leopold, in turn, reports to Thomas F. Farrell, II, chairman, president and chief executive officer. The other members of DESC's executive leadership team are unchanged.

If you have any questions, please advise.

Very truly yours,

K. Chad Burgess
